

## Running Water Revisited

Daniel Johnston

Running water, running water  
What are you running from?  
Running water, running water  
Where are you running from?

Running water, running water  
What are you running from?  
Wait... how does the song go?

Running water, running water  
What are you running from?  
Running water, running water  
You always seem to be on the run  
Running water, running water  
What are you running from?
