

# Angels Watching

Daniel Lanois

Got me some angels watching over me  
All day, all night  
Got me some angels watching over me  
All day, all night

Let the truth come out and play  
Allow me to simply say  
Love in all her creation  
Still with us here today

Got me some angels watching over me  
All day, all night

Was Judas not chosen  
With a roll to betray  
Is a mind not touched  
From the drifter to the stage

Got me some angels watching over me  
All day, all night  
Got me some angels watching over me  
All day, all night

You can't see them, but they're watching  
You can't see them, but they're watching  
They're watching all day, all night  
Protect me from hurt, harm and danger  
All day, all day  
You can't see them, but they're watching  
All day, all night  
You can't see them, they're watching  
All day, all night  
Protect me from hurt, harm and danger  
All day, all night  
You can't see them, but they're watching  
Angels  
Watching, angels watching  
Angels, yeah  
Watching, watching  
You can't see them  
Angels  
But they're watching  
Angels  
Watching
