

# Way Down

Daniel Lanois

I'm looking for a city  
On the other side  
And when I get there  
I'll be satisfied  
It's a beautiful city  
That's what I've been told  
Where we are not bought  
We are not sold

Way down (way down)  
Way down (way down)  
A city on the other side  
Way down, way down  
A city on the other side

Beyond betrayal  
And trouble of every kind  
Beyond my reason  
Beyond my reasoning why  
Beyond the reaches  
Beyond the reaches of time  
Beyond the horizon  
Beyond the horizon line

Way down, way down  
Way down, oh  
A city on the other side  
Way down, way down, oh  
A city on the other side

Weep like a willow  
Moan like a dove  
I'm trading pity for kindness  
Hatred for love

Way down (way down)  
Way down (way down)  
Going to that city  
A city on the other side  
Way down (way down)  
Way down (way down), oh  
A city on the other side

Beyond the start  
Beyond the start and the end  
To rediscover  
To rediscover again  
On the other side  
On the other side we descend  
Into our hearts  
Into our hearts we transcend

Way down (way down)  
Way down (way down), a beautiful  
A city on the other side  
Way down (way down), way down  
A city on the other side

A beautiful city (way down)  
That's what I've been told (way down)  
We are not bought (city)  
We are not sold (on the other side)
