

# Here In The Heart

Daniel Lavoie

Friends like us never say good bye  
There's no reason we should cry  
We've got something you and I  
This world can't divide  
If you miss me just close your eyes  
Picture us side by side  
Up there like parallel lines  
Airplanes across the sky

Here in the heart of me  
That's where you'll always be  
Deep as the deep blue sea  
Close as the air I breathe

Tell me you won't be afraid  
Remember all the things we said  
You know I'm always here  
Just a thought away  
When you need to be with me  
Just think real hard we'll be together  
I'll come reaching out  
Across that empty sky to feel you near

Here in the heart of me  
That's where you'll always be  
Deep as the deep blue sea  
Close as the air I breathe

Well the dogs and the people they gather round  
As the caravan moves out of town  
Moving on with the passengers  
To another place  
I don't know where love begins  
Or how it grows or why it ends  
We know when we keep ours  
Where it can never change with the wind oh no

Here in the heart of me  
That's where you'll always be  
Deep as the deep blue sea  
Close as the air I breathe

Here in the heart of me  
That's where you'll always be  
Deep as the deep blue sea  
Close as the air I breathe

Here in the heart of me  
That's where you'll always be  
Deep as the deep blue sea  
Close as the air I breathe

Here in the heart of me  
That's where you'll always be  
Deep as the deep blue sea  
Close as the air I breathe
