

parasite

Daniel Leggs

Hold me closely on a hazy afternoon
Where's your appetite?
What'd you do tonight?
You told the old me that it'd all be over soon

Way to humanize
I'm your parasite
Way to humanize

And I could awake
If it wasn't a worthless day tomorrow
And I couldn't feel
With every emotion turned to sorrow
I wasn't in love
Just giving my heart away to borrow
It wasn't enough
But I'm still holding on until it's time to let you go

Hold me closely on the second-story roof
By the satellite
What'd we do tonight?
Solely know me just from what I'm going through

Way to humanize
I'm your parasite

And I could awake
If it wasn't a worthless day tomorrow
And I couldn't feel
With every emotion turned to sorrow
I wasn't in love
Just giving my heart away to borrow
It wasn't enough to runaway
I'll always be your parasite
