

# Who turned the lights out

Daniel Lioneye

Heartache of the hashishim, got some  
Warped and lustrous breasts within  
I am bloated bacchus, the demon and doctoro I observe the wildlife  
Confusion, pain, and emotional issues  
Cause epic loss of cerebral tissue

Too bad I have gone insane  
Who turned the lights out?  
I can't get out no matter what  
No way out

Can I get injection of fun into  
My brain now?  
Or please perhaps a refreshing shot  
Of napalm?

Pilgrim in an unholy land  
A paradox written in the desert sand  
21st century archaic temples  
Mass producing hephaestion's mantles  
Like a lamp in the night I melt into the equation of the hollows!

I'm the spear of destiny  
I'm piercing through your soul  
Aaah! Whatta nasty little naaargh!  
I am the chosen one!

Wow! My god! Well this can't be right now..  
Wow! I can hear god 5 by 5!  
0800-555fuckingod

Preposterous prophet of retardation  
Hive mind in synchronized masturbation  
Barbaric horde is storming the gate  
O sinner repent before its too late

Wow! What a roller coaster ride!  
There are many gods, not just one  
Confusing celestial choir!  
Which one should I obey?

No sanctuary in pagan mythos  
I pity all of you neo pagans in la-  
la land there's nothing to see go home  
No relief in christian pathos  
Christians with nukes scare me scare me scare me scare me  
The evolution has come to an end  
So don't fucking tell me that we're innocent no no no no yes no  
Yes no fuck sa-ta-ta-ta-tan no fuck yeah no yes no yes  
Yes no we're not
