

# Love

Daniel Merriweather

I drink until I'm drunk  
I talk like I'm insane  
Wake up and I can't recall my name  
Those angel are the devils  
Who need an angry fix  
They helped me forget everything  
But I remember this

Love, it has no fear  
Love is always strong  
Love is perseverance  
Love, it will go on  
Love, it never lies  
'Cause love is always true  
Love is all of me  
And love is all of you

What you know about that lean?  
Uptown they sell that haze  
By any means necessary  
To block out all the crazy  
You can howl into the heavens  
And you can conquer all your fears  
But they'll keep dropping bombs on 'em  
For another hundred years

But love, it has no fad  
Love, it wears no crown  
Love, it has no borders  
And love is never proud  
And love, it never lies  
And love is always true  
Love is all of them  
And love is all of you

You can pray into the sky  
And you can worship the sun  
When it shines down upon you  
You will see there's only one

Love, it has no fear  
Love is always strong  
Love is perseverance  
Love, it will go on  
Love, it never dies  
'Cause love is always true  
Love is all of us  
And love is all of you

Until the sun burns out  
Until there is no more  
Until the [?]  
Alone will set the score  
Until the sun runs cold  
Until it wash away the noise  
Outside of space and time  
Forever I'll be yours

You break the bread [?]  
You rise above the pain  
I'll be your evermore  
Your ocean and you rain  
I'll catch the [?]  
You've turned a sight to see  
Until the sun burns out  
Until we all are free
