

Cold

Daniel Schuhmacher

Why you are so cold, cold, cold?
Easy to love, but so hard to hold

As I'm watching our
Paint dry, didn't like the
Picture, but can I really change it?
Tell me, I would

Emotions are on hold while the whole worlds turning
Ah-ah-ah-ah-ah-ah, oh-oh-oh-oh
Twisted lies so old, but they will keep returning
Ah-ah-ah-ah-ah-ah

Why you are so cold, cold, cold?
Easy to love, but so hard to hold
It's like a whole ocean is falling apart
I just wanna dive in and start
All over again

I know you're not acting
Out of cruel intentions
We're not meant to break
Tell me, I should

Emotions are on hold while the whole worlds turning
Ah-ah-ah-ah-ah-ah, oh-oh-oh-oh

Why you are so cold, cold, cold?
Easy to love, but so hard to hold
It's like a whole ocean is falling apart
I just wanna dive in and start
All over again

When did we fall in and out of love?
We're more than our flaws and faults
And I hope you know what you mean
To me

Why you are so cold, cold, cold? (Cold, cold cold)
Easy to love (To love), but so hard to hold (So hard to hold)
It's like a whole ocean is falling apart
I just wanna dive in (Dive in) and start
All over again

When did we start to stop giving it all? (Giving it all)
You're more than flesh and blood (Flesh and blood)
When did we fall in and out of love? (In and out of love)
We're more than our flaws and faults

Why you are so cold?
