

Your words are flying
way to high
Then disappear into the sky
Like meteoroids
and speeding light
You caught my eye

PRE

Even at first I, I
didn't care about you
I've seen it before
Still I wanna see more

CHORUS

La la la
love is like a lottery
a valid ticket to the paradise
La la la la
You fell into my melody
but tell me is it good for me
Take a chance and we will see
if you and I were meant to be
La la la la
Make a wish fingers crossed
With a kiss you win all of me

VERSE 1

You're whistling
the sweetest song
and you make me wanna sing along
Your symphony
Aligns with mine
It caught my ear

PRE

Even at first I, I
didn't want it to
I'm ready for more
so keep do what you're doing

CHORUS

Me, if you wants some more
what you're waiting for
Just believe
Make a wish fingers crossed
With a kiss you win all of me
