

Touch Me

Daniel Schuhmacher

I was branded by the fire
and i tempered justice with mercy
my confidence is like a wire
it could break any minute

I'm in a land of real
Empiness
Again again this
Loneliness
No more regrets
I will forget that emotionless time

Touch me so i feel that i'm not alone
It gives me goosebumps all over
Speak to me help me pull me through this pain
Then i'm sure i won't be alone
Touch me so i feel that you're in love with me
I need you like an atom needs energy
Speak to me help me spread my wings again
I trust you marke me feel secure

Now we'll stay together
Just imagine we're in a wonderland
And i try to believe in
The truth of love again

And I'll be healed never feel
Loneliness
Not again again this
Empiness
No more pain
I will forget that emotionless time

Touch me so i feel that i'm not alone
It gives me goosebumps all over
Speak to me help me pull me through this pain
Then i'm sure i won't be alone
Touch me so i feel that you're in love with me
I need you like an atom needs energy
Speak to me help me spread my wings again
I trust you marke me feel secure

I'm so breakable like a child
I'm so unsure like a man who's sheltered
but with you i give my life a new start

Touch me so i feel that i'm not alone
It gives me goosebumps all over
Speak to me help me pull me through this pain
Then i'm sure i won't be alone
Touch me so i feel that you're in love with me
I need you like an atom needs energy
Speak to me help me spread my wings again
I trust you marke me feel secure
