

# Thinkin Bout You

Daniela Andrade

When the lights are low  
And there's no one home  
Will you think about me

And when ocean tides  
Keep us either side  
Will you think about me

And I know things aren't what they're like  
When you're here next to me  
But if it's alright for a moments time  
Will you think about me

And oh, you're the light I see  
Oh, so if I should leave

I'll send postcards to where ever you are  
And whisper them to the trees  
To remind you if you need me to find you  
Just think about me  
Just think about me
