

Daisy

Danielle Dax

Daisy-
I know you didn't mean it
But you got her
Oh honey-
They say
'You took along a pistol
And you shot her'
And now the word is out in town
They will come
And track you down
Take away your pride
Take away your liberty

I will give you sympathy
Anything you want from me
I will give you all of my heart
I will give you sanctuary
Everything is safe with me
You have got a hold on my heart

Daisy-
They say she made your life
Not worth the living
Oh but you took it
With dignity and pride
You were forgiving
But then she pushed
You just too far
Broke through your resolve
At last
Something gave inside
Something I'm afraid to see

I will give you sympathy
Anything you want from me
I will give you all of my heart
I will give you sanctuary
Everything is safe with me
You have got a hold on my heart

And the men all search the town
But the fox has gone to ground
And they'll never settle down
Until they find you
