

# Put U On

DaniLeigh

She's so different  
Kinda girl you show off to your niggas  
Doin' things you wouldn't, takin' pictures  
'Cause I got that effect on you, yeah, yeah  
Don't need no filters  
Do it my way, boss up makin' figures  
Feel no type of way 'bout them other bitches  
'Cause I got that effect on you, on you

Something you might not be used to  
I'm gonna show you that new-new  
Got you connected like Bluetooth  
Put a spell on you like voodoo  
Get mad at me, you come right back  
Can't let me go, 'cause you like that  
I could change your life  
So get ready, yeah

I'ma put you on  
I'ma turn you out  
I'ma bless you up  
I'ma hold you down  
I'ma wake you up  
Show you what's up  
I'ma put you onto something, baby  
'Cause you don't know my love  
'Cause you don't know my love

Don't worry 'bout nothing  
Baby, don't worry 'bout nothing when you're with me  
I won't pay no mind 'bout nobody  
Around you when you next to me  
(When you next to me)  
Put your drink up  
Everybody up here round here looking at us  
They looking at me with that body that you get to touch  
All night  
That's right  
Yeah, yeah

I might be something you might not get used to  
I'm gonna show you that new-new  
Got you connected like Bluetooth  
Put a spell on you like voodoo  
Get mad at me, you come right back  
Can't let me go, 'cause you like that  
I'ma change your life  
So get ready, yeah

I'ma put you on  
I'ma turn you out  
I'ma bless you up  
I'ma hold you down  
I'ma wake you up  
Show you what's up  
I'ma put you onto something, baby  
'Cause you don't know my love

Oh-oh, baby  
Oh-oh-oh  
'Cause you don't know my love

Oh-oh, baby  
Oh-oh-oh
