

Situations

DaniLeigh

Please don't make it a scene 'cause
I've been doing this all my life
Say I'm lying but what you mean?
Think I'm tweaking but that ain't me
We got something between us
I be thinking 'bout you all night
It's all part of the dream, love
Just a part of the lifestyle

Oh, baby, say, say something
I don't give a damn 'bout nothing
Even though, even though
I be up in here without you
Baby, you can trust me
I love the way you love me
So let it go, let it go, ah, baby

He said, "Have another drink"
I might
Buying me the things I like
But even with these flashing lights
I'm still thinking of you
And he's selling me a dream tonight
Trying to get you off my mind
But when I think of paradise
I think of me and you

These boys are situations (Oh, no)
These boys are here for fun (Oh, no)
They all come second (You know they do)
But you my number one (You're my number one)
They love me while I'm dancing (Oh, babe)
They love me while I'm drunk (Oh, I'm drunk, babe)
But I can't wait to be with you when I'm done

I'm saying, baby, please
I'll be over here, you'll be over there
But you're still my baby
Can you feel me, ah, baby?
I need, I need my space
You need yours
Be we're all that we need
And, baby, you know that I want you, oh

Oh, baby, say, say something
I don't give a damn 'bout nothing
Even though, even though
I be up in here without you
Baby, you can trust me
I love the way you love me
So let it go, let it go, ah, baby

He said, "Have another drink"
I might
Buying me the things I like
But even with these flashing lights
I'm still thinking of you

And he's selling me a dream tonight
Trying to get you off my mind
But when I think of paradise
I think of me and you

These boys are situations (Oh, no)
These boys are here for fun (Oh, no)
They all come second (You know they do)
But you my number one (You're my number one)
They love me while I'm dancing (Oh)
They love me while I'm drunk (I'm drunk, babe)
But I can't wait to be with you when I'm done (Can't wait, whoa)
