

Whoa, whoa
Oh-whoa-ooh

How we both superstars? (Superstars)
Ain't no other man, no other woman
That's how really do it what we doing
I know that they wish they could but couldn't
Damn, we both superstars (Superstars)
We be like Jay-Z and Beyoncé
I be your Kim K, you're my Kanye
I hope it's not so much when we go public
But I wanna

I wanna show you off, I wanna tell the world
Hope that everybody loves that I'm your girl
Hope TMZ don't post the pictures from the club
'Cause they'll show the world exactly who I love
You love the way I always go and get my bag
And that's to show that I ain't with you 'cause you rap
You make me better, guess I found my better half

Pick up my superstar (Superstar)
Playin' new songs in my car
Drive through LA and smoke a blunt
Thinkin' 'bout how far we've come
We like a movie, you and I (You and I)
And I can tell you wanna love me right (And I can tell)
I can't sleep without you no more at night
Even though I know you gotta catch that flight

I wanna show you off, I wanna tell the world
I hope that everybody loves that I'm your girl
Hope TMZ don't post the pictures from the club
'Cause they'll show the world exactly who I love
You love the way I always go and get my bag
And that's to show that I ain't with you 'cause you rap
You make me better, guess I found my better half
