# Make Me Sick

**Danity Kane**

Oh
Oh
Yeah (Ooh, ooh, oh, oh)
You got me feeling crazy
It's like... just listen

What I got, couldn't feel any worse
It's like I'm possessed, under some kind of curse
Temperature on rise, I can't close my eyes
(I can't sleep at night and you're the reason why)

Got my heart out in the cold (Breaker, breaker)
I'm afraid of getting broke (Operator, 'rator)

S-O-S, I'm overboard (Cause you threw me in the sea)
Please get the medic, somebody rescue me (Got that fever from you)

Boy, can't breathe, bones are shaking (Ah)
Heavy spinning cause you make me (What?)
Boy, you make, see you make me
Ooh, you make me
You make me sick
Got the shivers when I'm near you
Call the doctor cause you make me, oh
Boy, you make, see you make me
Ooh, you make me
You make me sick

(Ha-choo) I'm allergic to your face
(So queasy even when I hear your name)
Dead on arrival from my self-denial
(I can't even breathe) Boy what you do to me

Got my heart out in the cold (Breaker, breaker)
Ooh, I'm afraid of getting broke, yeah (Operator, 'rator)

S-O-S, I'm overboard (Cause you threw me in the sea)
Please get the medic, somebody rescue me (Got that fever from you)

Boy, can't breathe, bones are shaking (Ah)
Heavy spinning cause you make me (What?)
Boy, you make, see you make me
Ooh, you make me
You make me sick
Got the shivers when I'm near you
Call the doctor cause you make me, oh
Boy, you make, see you make me
Ooh, you make me
You make me sick

Boy, can't breathe, bones are shaking (Ah)
Heavy spinning cause you make me (What?)
Boy, you make, see you make me
Ooh, you make me
You make me sick
Got the shivers when I'm near you
Call the doctor cause you make me, oh
Boy, you make, see you make me
Ooh, you make me
You make me sick

Boy, you make, see you make me
Ooh, you make me
You make me sick
Boy, you make, see you make me
Ooh, you make me
You make me sick

Mama said don't hate but your bitter pill
I can't get well cause you're keeping me ill
(I need a check-up or maybe some pills)
Cause I'm sick of your shit
So sick of you here

Ah, ah, ah...
Queasy, shaky-shaky, got me spinning cause you make me sick
Ah, ah, ah...
Got that fever from you

Boy, can't breathe, bones are shaking (Ah)
Heavy spinning cause you make me (What?)
Boy, you make, see you make me
Ooh, you make me
You make me sick
Got the shivers when I'm near you
Call the doctor cause you make me, oh
Boy, you make, see you make me
Ooh, you make me
You make me sick

Boy, can't breathe, bones are shaking (Ah)
Heavy spinning cause you make me (What?)
Boy, you make, see you make me
Ooh, you make me
You make me sick
Got the shivers when I'm near you
Call the doctor cause you make me, oh
Boy, you make, see you make me
Ooh, you make me
You make me sick
