

# Do This Every Night

Danko Jones

Got a band  
Need a stage  
Make the lights look like a motorcade  
Got your back  
You got mine  
Turn it up  
I like it amplified

You do your thing  
I'll be here doing mine  
Don't need much motivation  
I can do this all the time  
I can watch you shake a leg, do your thing  
I like to get up, rock the house  
And do it again  
I wanna do this every night

Let's get up  
To get down  
I wanna do this every night  
Let's get up  
To get down  
I wanna do this every night

Been around  
Once or twice  
Logged some miles from here to paradise  
Never stopped  
Never quit  
Picked up the slack and made it stick  
Look at my face  
Does it lie?  
It tells the truth no matter what you hide  
Why don't you call my bluff, if you can  
I'd like to see you try to follow me and my fans  
I wanna do this every night

Let's get up  
To get down  
I wanna do this every night  
Let's get up  
To get down  
I wanna do this every night

Let's go, let's go, let's go  
Go, go, go, go  
Let's go, let's go, let's go  
Go, go, go, go

I wanna do this every night  
Let's get up  
To get down  
I wanna do this every night  
Let's get up  
To get down  
I wanna do this every night  
Let's get up

To get down  
I want the love song made, we gonna rock  
This town  
Let's get up  
To get down  
I want the love song made, we gonna rock  
This town
