

Flaunt It

Danko Jones

You got it
You flaunt it
You got it
You flaunt it
You got it
You flaunt it
You got it
You flaunt it

Standing in the shadows just a-hugging the wall
You think that nobody can see what you do
Well, let me tell you it's the opposite it seems absurd
You can't see what we keep on seeing in you
You got so much style, you can take on the world
All you do is grab the bull by horns
And if anybody says you don't know what you're doing
You say they're looking at a unicorn

You'll take it on the chin, but you'll buckle down quick
There's nothing out there that you can't do
They only thing that's stopping you
Take the first step, I swear to god, what I say is true
It'll be alright, you'll be satisfied
And in no time you'll get it together
But you gotta let everybody know
It's only fair, rise up when you're feeling it better...

You got it
You flaunt it
You got it
You flaunt it
Go, go, go...

You don't even need me to say all these silly things
In the back of your mind it's the truth
Forget everybody, forget all of this block it out
You gotta concentrate on you
When you're ready, you're ready, no one can take it away
It will be by design and not luck
Because once you know and once you're set
Take on the world when you ain't feeling stuck...

You got it
You flaunt it
You got it
You flaunt it
Go, go, go...

I'm betting you already know
Come on and let us see the show
Do-do-do-do-do-do it now

You got it
You flaunt it
You got it
You flaunt it
(Go, go, go...)

You got it
You flaunt it
You got it
