Good Time

Danko Jones

I've spent too much time wasting it all away
But now I know who's number one
Not gonna waste another day
You only get one shot in life

One chance is all you get
And I've missed out too many times
But I've got no regrets
I've got no regrets

I came here to fuck shit up and have a good time
I came here to fuck shit up and have a good time

And maybe I could've done things different
And I might have been the best
But I wouldn't change a thing that's happened
Best to leave it as it is

Do you know what's haunting me?
It's what I never did
But now's the time to take it back
I'm going in for the win
I'm going in for the win

I came here to fuck shit up and have a good time
I came here to fuck shit up and have a good time
I came here to fuck shit up and have a good time
I came here to fuck shit up and have a good time

I'm ready now
No holding back
Let's get it on
Tonight
Tonight

I'm ready now
No holding back
Let's get it on
I'm going in for the win

I came here to fuck shit up and have a good time
I came here to fuck shit up and have a good time
I came here to fuck shit up and have a good time
I came here to fuck shit up and have a good time

We came here to fuck shit up and have a good time
We came here to fuck shit up and have a good time
We came here to fuck shit up and have a good time
We came here to fuck shit up and have a good time
