

# I Want Out

Danko Jones

I'm gonna leave my situation in the morning  
Why don't you jump into my car and we'll hit the road  
I got no place I'm going no destination  
When I leave I ain't never going home

Let's just drive into the sunset no expectations  
And when we leave we tell nobody no one will know  
It's bout time we got the hell out and made the distance  
And with you riding shotgun I'm always home

When everybody said I couldn't  
You said that I could

I wanna leave, I want out  
I ain't confused I have no doubt  
I wanna leave, I want out  
I want out, I want out

I've grown tired of my place ain't going nowhere  
I think I made up my mind long time ago  
So the question is are you coming with me?  
I can do this better with you than all alone

Cause when everybody said I couldn't  
You said that I could

I wanna leave, I want out  
I'm not confused I have no doubt  
I wanna leave, I want out  
No need to scream or jump and shout  
I wanna leave, I want out  
I'm not confused I have no doubt  
I wanna leave, I want out  
I want out, I want out

I wanna leave, I want out  
I want out, I want out  
I wanna leave, I want out  
I want out, I want out  
I wanna leave, I want out  
I want out, I want out  
I wanna leave, I want out  
I want out, I want out
