

Let's Rock Together

Danko Jones

Let's rock together
Let's take this to the streets
It's all fair I swear
If you wanna take it there
'Cause I'm game in a heartbeat

Calling uptown
Calling downtown peeps

Let's rock together
There's nothing else I wanna do
Take a little from here
Take a little from there
Wanna see it from your point of view

Calling uptown
Calling downtown too

You might not think it's right
You might just criticize
But you might be surprised
When we see eye to eye

Let's rock together
Do everything we said we would do
No stone unturned I wanna feel it burn
You know that I'm overdue

Where's my uptown
Where's my downtown crews

You might not think it's right
You might just criticize
But you might be surprised
When we see eye to eye

You can stay on your side
And I'll stay on mine
But I know there will come a day
When things will rectify

If you could see how I see things
You'd see so much in common
If I could see how you see things
Maybe we'd both get rocking

You walk a mile in my shoes
And you see my point of view
I may be wrong about you
Let's hope we've made a breakthrough

Let's rock together
Let's rock together
Let's rock together
Let's rock together
