

Let's Start Dancing

Danko Jones

Everybody wants a whole lot of rhythm
Got to do a little kicking
If you can't, then just go home
And don't look back, man
I'm in for the long haul
Don't need no phone call
I'm gonna do my thing, thing
Let's do this thing

Check it out while I rev it up
You think you got it tough?
Suck it up when it's worth
Do you no when to go for blood?
You really gotta thank your biggest fan
You gotta get a better ham
Never gonna get a bone
No where, no way, no how

Let's start dancing
Feel tip top toe
Stomp, get on down
Let's start dancing
Feet don't fail me now
Let's start dancing
Oh, my God
Let's start dancing
Feet don't fail me now

Pick it up, make your move, do your thing
Everybody look around, who's that?
Look at that man
That cat can swing
Busting out like a mega phone
And we're fighting like a bag of bones
Let's text this thing

Do easy, when your hot
You gotta pick your spots
You gotta know just what you got
And you got a lot
Never been too strong
Like a ticking time bomb
Better drop and blow my top
But I need to 'cause I say

Let's start dancing
Feel tip top don't stop get on down
Let's start dancing
Feet don't fail me now
Let's start dancing
Oh, my God
Let's start dancing
Feet don't fail me now

You want it bad
How bad?
Do you want it?

Do you want it?
You want it bad
How bad?
Do you want it?
Do you want it?

Everyone's watching
Now is the time
Take this home
Maybe if you want
I'll let you go
To the flow
I say
Let's start dancing

You remember make a bigger ticker
Take a lick
I pick a lick to get this far
Let's start it right
That's right
Then straight, that's right
Still here with my shoes on
Getting ready for the jump on
Are you ready?
Can you dig it?
Do you wanna get it on?

Shake this shake that
Don't know how, don't worry
You'll get it down flat
In no time at all
I'm thinking we can do a little picking
Do the little chicken
Simple if you wanna get a ripping
Maybe, let's cut this rug up

Let's start dancing
Feel tip top don't stop get on down
Let's start dancing
Feet don't fail me now
Let's start dancing
Oh, my God
Let's start dancing
Feet don't fail me now

You want it bad
How bad?
Do you want it?
Do you want it?
You want it bad
How bad?
Do you want it?
Do you want it?
Let's start
Let's starts dancing
