

# Make A Move

Danko Jones

You wanna know why  
I don't even look whenever you walk by  
It's kinda easy to see you got the tendency  
To drive a young man wild  
I don't even (go out[?])  
'Cause if I ever saw you I'd lose my mind  
I'd threw away everything just to let you in  
For a moment or a smile  
Wooh

So make a move, baby  
Don't sit around there watching  
You make a move, baby  
I make a move, too

So finally you know how  
I feel about you woman that make your move  
Do you like a meeting in full live and serious  
Or is it just a one time move  
'Cause I can read you by the way you look at me  
It's too strong for you (would've lie[?])  
Times been holding back is just waste of time  
I want you right here by my side

So make a move, baby  
Don't sit around there watching  
You make a move, woman  
I make a move, too

Make your move, baby  
You sit around there staring  
You make a move, baby  
I make a move, too

"Hey, what time is your man picking you up, baby?  
You say you don't got a man?  
Well you been staring at me all night and you haven't made your move yet  
You see, I'm a stranger in your town and I don't want any trouble  
So if you're somebody's woman I'm just gonna sit right here  
But I can see what you're looking at  
And you like what you're looking at, don't you?  
I feel you, too."

You make a move, baby  
Don't stand there just looking  
You make a move, woman  
I make a move, too

So make a move, baby  
I'm just sitting here and waiting  
You make a move  
I make a move, too  
I make a move, too
