

Party

Danko Jones

Hey, it's getting rowdy
Let's gather all around everybody's getting down
Let's start a riot and make the news
They always eat it up if it's got some attitude

A like a little trouble if it can light up the mood
I don't care how far you take it and we both get screwed

Take off your shoes pants shirt every clothing item
I wanna make it with you you do too we're both excited
Take off your shoes pants shirt every clothing item
Let's get this going baby I know that you wanna try it

After tonight we've decided
We're gonna be an item

Don't tell anybody - let's go, let's leave this party
Don't tell anybody - let's go, let's leave this party

I can't believe it when I see you there
You look sophisticated, I'm feeling debonair
You gotta shake what you got
I wanna watch you shake it because it gets me hot

You're like a movie star walking in your underwear
I'm very terrified, I gotta grow a pair

Take off your shoes pants shirt every clothing item
I wanna make it with you you do too we're both excited
Take off your shoes pants shirt every clothing item
Let's get this going baby I know that you wanna try it

After tonight we've decided
We're gonna be an item
But for right now let's make out
Till things start getting wilder

Don't tell anybody - let's go, let's leave this party
Don't tell anybody - let's go, let's leave this party
Don't tell anybody - let's go, let's leave this party
Don't tell anybody - let's go, let's leave this party

Let's go, I'm ready

Are you ready? Let's disappear
Nobody gonna notice, nobody will interfere
I wanna get down right now
It's gonna feel good, start the countdown

Don't tell anybody - just you and me invited
Don't tell anybody - let's go, let's leave this party
Don't tell anybody - just you and me invited
Don't tell anybody - let's go, let's leave this party now
