

Damned If I Do

Danni Leigh

Seems like with every step I take
It's in the wrong direction
And every little move I make
To try and get your attention
Turns out to be dead wrong
If I've been wasting my time all along
Tell me true
Am I damned if I do

I'm all grown up and can't believe
I'm acting like a kid
While my heart hangs out on my sleeve
You keep your feelings hid
I'm on the edge about to fall
Still you don't give me a sign at all
Tell me true
Am I damned if I do

I push you away
The harder I try
I get so scared you'll say goodbye
And I've never wanted a love this much
That's why I'm carrying on and such

All I really want to know
Is dear do you care for me
And if you do I need to hear it
Would you tell me please
Should I stay or should I go
Which way do I turn I don't know
Tell me true
Am I damned if I do

Should I stay or should I go
Which way do I turn I don't know
Tell me true
Am I damned if I do
Oh whoa tell me true
Am I damned if I do
