He Used To Say That To Me

(Jim Lauderdale/John Scott Sherrill) Let's take a rest Your kisses take my breath You are the best It's never been like this He used to say that to me Over and over so sweet Tell you he'll never leave He used to say that to me It thrills you so When he whispers soft and low Please hold me tight I need your love tonight He used to say that to me Over and over so sweet Tell you he'll never leave He used to say that to me I'm yours, he sighs And he means it at the time But someday, he'll go If you're wonderin' how I know He used to say that to me Over and over so sweet Tell you he'll never leave He used to say that to me He used to say that to me Over and over so sweet Tell you he'll never leave He used to say that He used to say that He used to say that to me Over and over
