

Unfinished Kiss

Danni Leigh

The way you touch it left me
Thirtin' for your love
The first was one too many
And a thousand wouldn't be enough
Where'd you come from baby
Now why'd you leave so soon
It feels just like the ghost of you
Still lingers in this room

(Chorus)

I can hear your whispers cry out loud
Echoes of the love you left
Were in hidden in that sound
And my soul has never known a longing like this
Haunted by that unfinished kiss

That old clock is ticking
Moonlight lonely time
Memories of you and me
Keep running through my mind
I know you'll come back baby
'Cause I felt in when you fell
Just knowing how your loving feels
I don't wait so well

(Repeat Chorus)

And my soul has never known a longing like this
Haunted by that unfinished kiss
Haunted by that unfinished kiss
