

# Going Going Gone

Dannii Minogue

Must've been a time when  
Yeah  
Must've been a time when you were all mine

So let me tell you  
It went like this

Was it real?  
Did I imagine it?  
Something I created in my head?  
When we sat  
On my bed  
And you said  
"Baby, baby"

Were you teasing when you called my name?  
(Call my name)  
I felt love  
I bet you felt the same  
When you sat  
On my bed  
And you said  
"Blah, blah, blah, blah"

Must've been a time when you were all mine  
Something came between us  
Over and over in my mind  
Trying to find a reason  
I can't take it back  
Where has the love gone?  
Going, going, gone

(Going)  
Going, going, gone  
(Going)  
Going, going, gone

Now I know that it was all a game  
(All a game)  
I bet you told your next doll the same  
When you sat  
On her bed  
And you said  
"Blah, blah, blah, blah BLAH!"

Must've been a time when you were all mine  
Something came between us  
Over and over in my mind  
Trying to find a reason  
I can't take it back  
Where has the love gone?  
Going, going, gone

Must've been a time when you were all mine  
Something came between us  
Over and over in my mind  
Trying to find a reason

I can't take it back  
Where has the love gone?  
Going, going, gone

No!

Going, going, gone

(Must've been a time when)  
He said he loved me  
(Over and over)  
He was my baby  
(Must've been a time when you were all mine)  
No he don't love me  
(Over and over in my mind)  
I don't know why!

Must've been a time when you were all mine  
Something came between us  
Over and over in my mind  
Trying to find a reason  
I can't take it back  
Where has the love gone?  
Going, going, gone

Must've been a time when you were all mine  
Something came between us  
Over and over in my mind  
Trying to find a reason  
I can't take it back  
Where has the love gone?  
Going, going, gone

Must've been a time when you were all mine  
Something came between us  
Over and over in my mind  
Trying to find a reason  
I can't take it back  
Where has the love gone?  
Going, going, gone
