

# I Dream

Dannii Minogue

Oh  
I wish I could tell you my secrets, my dreams  
Oh whoa  
Never thought of me as sentimental  
Never thought of you as just a friend  
But now that we are something more than distant  
I got a need for you that never ends  
No matter how hard I try I just can't deny it  
So I dream (dream) dream (dream) boy I dream about you  
Yes I dream (dream) just to make it through the night  
I dream (dream) dream (dream) it's so lonely here without you baby  
Please, only you can make it right  
I dream, I dream, boy I dream about you  
About you, about you  
Holding on to feelings so strong is a danger  
When will the time be right to just give it a try  
I want to tell you all my secrets  
But I keep them locked inside  
Here alone I'm just waiting for a sign  
So it's just another night and I'm here without you  
So I dream (dream) dream (dream) boy I dream about you  
Yes I dream (dream) just to make it through the night  
I dream (dream) dream (dream) it's so lonely here without you baby  
Please, only you can make it right  
Try, I try, try, I'm here without you  
Try, try, still I dream, still I dream about you oh  
Ooh oh, I dream when I'm not with you oh  
Yes I dream (dream) dream (dream) boy I dream about you  
Yes I dream (dream) just to make it through the night  
I dream (dream) dream (dream) it's so lonely here without you baby  
Please, only you can make it right  
(Dreamed that I fell in love)  
I dream  
(Dreamed that I fell in love) Oh fell in love  
(Dreamed that I fell in love) (that I fell in love)  
(Dreamed that I fell in love)  
Fell in love  
(Dreamed that I fell in love)  
Oh  
(Dreamed that I fell in love) (that I fell in love)  
(Dreamed that I fell in love)  
REPEAT TO FADE
