

Green Light

Danny Brown

I'ma just do what I have to do
Lay you down like a mat 'cause I wanted to
Ride around, city lights, baby, you better get down low
Take me all the way and I'ma take you real slow
(Green light) Ride it all day
(Green light) Could ride me all day
(Green light) Ridin' me all day
Take me all the way and I'ma take you real slow

Just one thing that got me trippin' (Yeah)
Ayy, Marie, feel the summer breeze (Uh-huh)
Turn it up loud and drop that top (Yeah)
Eyes on the road, I'ma pass you the aux (Yeah)
So hard for me to not stare at you (Ah)
Puttin' on your lip gloss in a rearview (Yeah)
Lookin' so good while I just ride slow (Ah)
Take you where you wanna go (Go)
We can ride 'til the wheels fall off (Off)
Sittin' shotgun, it's about to pop off (Style)
Firework like New Year's Eve (Yeah)
Just stay here, don't want you to leave (Ah)
Red light, green light, let's get right (Right)
Got my guard down, not puttin' up a fight (Nah)
Toes on the dash and I hope it don't crash (Ah)
Heartbeat fast, gotta keep control

I'ma just do what I have to do
Lay you down like a mat 'cause I wanted to
Ride around, city lights, baby, you better get down low
Take me all the way and I'ma take you real slow
(Green light) Ride it all day
(Green light) Could ride me all day
(Green light) Ridin' me all day
Take me all the way and I'ma take you real slow

(Oh) Nothing's gonna stop me from giving to you
(Oh) Uh, oh, baby girl, I wanna see ya
(Oh; Uh, uh) Nothing's gonna stop me from giving
(Oh) Uh, oh, baby girl, I wanna see ya

Redline, going down low on the highway
Hate to be frank, I'ma do it my way (Ah)
Changing lanes while she do her thang (Yeah)
Got a smart mouth with a genius brain (Ooh)
Hands on the wheel while she giving me chills (Ah)
Tints on the window, keep it concealed
Way she do that, don't want her to stop (Nah)
Rhythm of the beat while the speakers knock (Style)
Use your tongue, got me so sprung (Ah)
Girl, you can get whatever you want (Let's go)
Where we going? I don't know (Nah)
Hard for me to concentrate on the road (Ah)
Driving fast while she do it slow (Yeah)
I'm about to bust, uh, give me some mo' (Ooh)
I'ma come wherever you go (Ah)
Hit me up, pull up fo' sho' (Yeah)

I'ma just do what I have to do
Lay you down like a mat 'cause I wanted to
Ride around, city lights, baby, you better get down low
Take me all the way and I'ma take you real slow
(Green light) Ride it all day
(Green light) Could ride me all day
(Green light) Ridin' me all day
Take me all the way and I'ma take you real slow
