

# Torture

Danny Brown

Remember one time, dawg  
This fiend owed the boss  
Put Peanut Butter on her pussy  
Let his pits lick it off  
Back when I was living on Flanders  
Seen another dope fiend beat another with a hammer  
Remember at the park, seen a nigga at a payphone.  
Got rocked in his dome  
Momma picked me up and ran home  
Was like fucking seven years old  
When I first seen a fiend try to light a rock off the stove  
Damn near burned his top lip off  
So my mind ticked off  
Desensitized to a lotta things  
Mind would drift off  
Wish it was what I seen on tv  
I snapped outta that  
Unc beating on my auntie.  
Gunshots outside  
Was sorta like fireworks  
We know they gained fireworks  
It's december 21'st  
Cold winter with a kerosene heater  
On the couch so cold, can't take off your sneakers

And it's torture  
Look in my mind and see the horrors  
All the shit that I've seen  
Nigga, it's torture  
Look in my mind and see the horrors  
All the shit that I've seen  
Nigga, it's torture  
Look in my mind and see the horrorss  
All the shit that I've seen

I feel like a prisoner of war  
Reacting sporadically to what the mind absorb  
Probably need a shrink  
Can't get a wink  
So I smoke a lot of kush and pop a Xanax to sleep  
Close my eyes, look up, fiend said 1 for 8  
Can tell that I scared him by the look on my face  
Reached in my pocket served him nervous as a surgeon  
Can't believe where I'm at 'pose be writin' verses  
Heard a knock at the do'  
'Nother fiend wanted fo'  
Gave him what he came for  
Told him go to the sto'  
Lemme get a box a box of Swishers, Faygo Cola  
Gave his ass another stone now guess what it's over  
He ain't come back  
Before I could look back  
I heard the wood on the door crack  
And they yelling police  
With this work up in my jeans man this a bad dream
