Danny Jones

When we first met  
You were with someone  
I didn't know you well yet  
So I made it my mission  
As you walk by I smell your perfume  
I wanna stay locked in this room  
Now I do not get  
How you with no one

When you call to say hello  
Are you alone

We go dancing in the dark  
But you give me nothing  
Sleep under the stars  
Still I don't get nothing at all  
I wanna talk  
But you don't say nothing  
I can't, can't love you like I'm suppose to  
Only miles apart  
When you give me something  
Faster than a dart  
When I tell you just what I want  
I wanna know  
Why you can't say something  
So I can, can love you like I'm suppose to

So I can, can love you like I'm suppose to  
So I can, can love you like I'm suppose to

When we first met  
I swear we had something  
And I don't regret  
Telling you everything

Touching my hand  
Giving me signs  
I wanna stay forever in this time  
When we first met  
I swear we had something  
But you give me nothing

We go dancing in the dark  
But you give me nothing  
Sleep under the stars  
Still I don't get nothing at all  
I wanna talk  
But you don't say nothing  
I can't, can't love you like I'm suppose to  
Only miles apart  
When you give me something  
Faster than a dart  
When I tell you just what I want  
I wanna know  
Why you can't say something  
So I can, can love you like I'm suppose to

So I can, can love you like I'm suppose to  
So I can, can love you like I'm suppose to
