

Is This Still Love

Danny Jones

Like nobody could do
You took my heart, you
Gave it a home
But now, I start to wonder
As we grow older
Are we together alone?

You got a heart of gold you're everything to me
I pray, I hope that you're feeling the same way that I do

Is it still love that's keeping us together?
'Cause if it's not love, then I gotta know what it is
Is this still us when you thank God forever?
'Cause if it's not love, then I don't know what it is

So, so many questions
And not enough answers
Where do we go?
Is, is it just madness?
Fuelling this sadness
How do I know?

You know my heart and soul so help me to believe and give me hope
Are you feeling the same way that I do?

Is it still love that's keeping us together?
'Cause if it's not love, then I gotta know what it is
Is this still us when you thank God forever?
'Cause if it's not love, then I don't know what it is

You will always be a part of me
So let's talk and tell me honestly
Hey now, don't be sorry, we're here now
You will always be a part of me
So let's talk and tell me honestly
Hey now, don't be sorry, we're here now

Is it still love that's keeping us together?
'Cause if it's not love, then I gotta know what it is
Is it still us when you need God forever?
'Cause if it's not love, then I don't know what it is

Is this still love
Is this still love
