In Full Effect

Danny Michel

You can pull over now, anywhere here's fine.
I don't want to jinx or waste me no more time.
I'm just gonna go... I don't want no more,
there's no more you +1 at the door.

I had to get out get me out' a me that town.
'Cause nothing ever adds up.
Everybody just stands round.
Soo I set out in the night for Saratoga Springs,
I flopped around until I learnt to work these wings.

'Cause I've been gone too long,
what's your name again?
Who's the president?
'Cause I've been gone so long,
everybody hit the deck.
'Cause I'm back in full effect.

They sat me down to check if me OK,
I told them I'm fine it's just the digital display.
But I rode it out, I killed Mr. Blue.
Now I'm at the wheel of this pleasure cruise.

'Cause I've been gone too long,
what's your name again?
Who's the president?
'Cause I've been gone so long,
everybody hit the deck.
'Cause I'm back in full effect.
