

# Midnight Train

Danny Michel

i recall the day  
the temperature in town  
i never felt that way  
the day you said you would be mine  
but after years of  
it's been tugging at our flame  
is there something i don't know?  
because you don't look at me the same

so i'm leaving on a midnight train  
i'm leaving on a midnight train  
if you don't call my name  
i'm leaving on a midnight train  
a razor and a blade  
i got my toothbrush and my comb  
i made my great escape  
and now i'm all alone  
so i'm leaving on a midnight train  
i'm leaving on a midnight train  
if you don't call my name  
i'm leaving on a midnight train  
i'm standind at the gate  
i got my ticket in my hand  
i'm praying you're just late  
i still don't understand  
i sank into my seat  
it was so  
we slowly pulled away  
and no one called my name  
so i left on a midnight train  
i left on a midnight train  
no one called my name  
so i left on a midnight train  
then i heard a voice  
is this seat right here free?  
mmm, she said you get no choice  
and now she's curled up here with me  
she bought a ticket for a midnight train  
she left on a midnight train  
she called out my name  
we left on a midnight train  
a midnight train (fade out)
