

Red Sails

Danny Michel

Feel a little roughed up
Feel a bit frightened
Nearly pin it down sometime
Red sails action
Wake up in the wrong town
Boy, I really get around

Thunder ocean
Thunder ocean
Red sails make me, make me sail along

Red sails and a mast so tall
Red sails
Red sails

Do you remember we another person
Green and red and black and so scared
Graffiti on the wall keep us all in tune
Bringing us all back home

Red sails
Thunder ocean
Red sails
Sailor can't dance like you, you

Red sails
Red sail action
Red sails
Some reaction

Action boy seen living under neon
Struggle with a foreign tongue
Red sails make him strong
Action make him sail for long
Life stands still and stares

The hinterland, the hinterland
We're gonna sail to the hinterland
And it's a far far, far far far, far far far away
It's a far far, far far far, fa fa fa, fa fa fa
