

# Do Or Die

Danny Saucedo

Saturday night in the city  
I was standing alone on the floor  
Then the girl arrived and I came alive for a dance

Something between us connected  
Undeniable deep in my core  
All I understood was with her I could take a chance

She whispered do or die  
She got to me  
She whispered do or die  
She got to me  
And when I answered do  
She gave me proof  
We were in it together  
Bound by every move

She whispered do or die  
She got to me  
She whispered do or die  
She got to me  
And when I started to  
Inside I knew  
She'd be with me forever  
Way beyond the groove

Going on two in the morning  
I was counting the beats of her heart  
Then the needle skipped  
And she curved her lips in a smile

Even if I had a warning  
How could I have remained on my guard  
Touching velvet skin  
Everyone'd begin going wild

When I woke I wasn't sure  
Had I deamed or was she more  
We're supposed to be  
Tied externally her and me
