

## Before I Fall

Danny Vera

You just say what I want to hear  
But all the love you give is true  
Your voice keeps me high  
Just love one on one  
These yearning feelings inside and I have to take this call

Before I fall in love again

Tonight's the night for love and romance  
A little dancing and a sway over the sand  
You look at the sea and then back at me  
These yearning feelings inside and I have to take this call

Before I fall in love again

When the magic has gone too far  
You feel the love inside and you can't deny what you've lost  
Before the sun burns your eyes and makes you go blind  
You're starting to cry

And then you fall in love again
