

# Best Days Of My Life

Danny Vera

I got nowhere to go  
I got nothing to do  
It's the day after Christmas  
And I'm thinking of you

Looking out of my window  
There nothing to see  
Even the snow that was falling thought it was time to leave

But I'm doing fine  
'Cause everyone said that these days are the best days of my life

I'm near the autumn of my live  
Got some grey on the sides  
Yes, I promise to work out, honey  
But I just can't find the time

I'm not a billionaire yet  
I guess that's nothing for me  
I got the wife, dog, car and house  
And some cards up my sleeve

But I'm doing fine  
'Cause everyone said that these days are the best days of my life

When the wild roses die  
You'll find a soft place to hide  
When your troubles don't mind  
These are the best days of our lives

The world is crazy  
God is gone  
No heroes waiting all night long to save the city from her darkest hours  
So where are the brave

I don't mean the soldiers who fight the wars  
But the man on the corner working in a store  
He hopes that his kids grow up to be honest men  
And make him believe again

But I'm doing fine  
'Cause everyone said that these days are the best days of my life

But I'm doing fine  
'Cause everyone said that these days are the best days of my life
