

# DNA

Danny Vera

I was singin' all night  
Now I'm drinkin' till dawn  
It's the way  
To make it through the day  
I've been writing some songs  
About it's hard to get along  
I won't change, it's in my DNA  
I won't change, it's in my DNA

I can scream, I can shout  
I can cry it all out  
I am stunned  
I found my luck again  
I'm not writing for you  
It's just a thing that I do  
The only way, it's in my DNA  
The only way, it's in my DNA

Well the blood flows where it can go  
And the heart knows what it wants  
And the mind says you can't have it all  
Don't go high before the fall

I forgot what I said  
But it's all in my head  
I got drunk  
I'll make it up someday  
Try to do what is right  
But I can't help the wrong  
The only way, it's in my DNA  
The only way, it's in my DNA

Well the blood flows where it can go  
And the heart knows what it wants  
And the mind says you can't have it all  
Don't go high before the fall

I was singin' all night  
Now I'm drinkin' till dawn  
It's the way  
To make it through the day  
I've been writing some songs  
About it's hard to get along  
The only way, it's in my DNA  
The only way, it's in my DNA
