Find Me

Danny Vera

I often walk out of the line
You stay behind in summer
Your voice I hear while you don't speak somehow
Trapped inside, forever

You always knew how to find me
You always did, so one more time please

So come on and find me
'Cause I lost myself along the way
Find me, help me brighten up this inner gray
Find me, I don't know how you'll get me back on track
But I'll find my way back

I've got memories of a life
I would sing for you in summer
There's no rhythm in me now
Your love is all that I am after

I can't see no lighter day
Can you make gray white, I wonder?

So come on and find me
'Cause I lost myself along the way
Find me, help me brighten up this inner gray
Find me, I don't know how you'll get me back on track
But I'll find my way back

Our bleeding hearts were so close to each other
Tears were falling on the bed
We would cry just to cry without reason
Now it feels like we never met

Find me, 'cause I lost myself along the way
Find me, help me brighten up this inner gray
Find me, 'cause I lost myself along the way
Find me, help me brighten up this inner gray
Find me, I don't know how you'll get me back on track
But I'll find my way back

But I'll find my way back
I'll find my way back
