

Heart Half Empty

Danny Vera

There's some left-over wine in the cupboard
Not a half a glass for the road
There's a toast to the time we were lovers
Then I'll go

Should I laugh or should I cry
Love you, hate you, live or die

Is my heart full or half empty
Is our love like the wine in this glass
You drink like there's no tomorrow
So sure it'll always last

Your bags are all packed in the hallway
The boxes are stacked on the lawn
You kiss me goodbye just like always
And you're gone

Trembling hands and nerves of steel
Someone tell me what to feel

Is my heart half full or half empty
Is our love like the wine in this glass
You drink like there's no tomorrow
So sure it'll always last

Will the memories stay sweet as they linger
Or the bitterness stay on my tongue
Is my heart half full of the love you gave me
Or my heart half empty 'cause you love is...

Is my heart half full or half empty
Is our love like the wine in this glass
Is my heart half full of the love you gave me
Or my heart half empty 'cause you love is gone
