

Hiding

Danny Vera

Nothing left to see when the war is over
When all the smoke has gone away
The feeling is mighty numb

Confusion all around
How we're gonna build this
When all we have is dust, brick stone and debris

I can't believe this and if it's real, if I don't dream

I feel like a like deer hiding for a hunter
I feel like a like deer hiding for a hunter
I feel like a like deer hiding for a hunter

Got to find a way to move on
We gotta lose this monster
While the streets are filled with dirt, pain and misery

I can't believe this and if it's real, if I don't dream

I feel like a like deer hiding for a hunter
I feel like a like deer hiding for a hunter
I feel like a like deer hiding for a hunter

Got to be safe
Don't run into the water
Got to be safe
Don't run into the woods

I feel like a like deer hiding for a hunter
I feel like a like deer hiding for a hunter
I feel like a like deer hiding for a hunter
