

How The Dice Will Roll

Danny Vera

Yeah, I feel so alive, got my energy high
There's nothing to stop or change me
Push it all to the max 'cause I'm almost there yet
I'm going so fast, you can't beat me

There is nothing you can do if you won't let me through
Cover yourself and hide
I feel so alive, got my energy high
There's nothing to stop me or change me

I need to blow off some steam
I need ice to cool me off
I don't need time
Give me what I need or I'll take it

Don't hold me back
Get out of my way
Let the games begin
And let me play

When the gamblin' has begun
I have no control
I'll let fate decide how the dice will roll

I will never slow down, I'll stay with my feet on the ground
But I will lift off sky high if you let me
I will launch like rocket, drivin' like Sonny Crockett
Testarossa in 5 burnin' rubber

Got my direction planned out like a bull near a flag
The red makes me go, it makes me mad
I feel so alive, got me energy high
There's nothing to stop or change me

I need to blow off some steam
I need ice to cool me off
I don't need time
Give me what I need or I'll take it

Don't hold me back
Get out of my way
Let the games begin
And let me play

When the gamblin' has begun
I have no control
I'll let fate decide how the dice will roll

I'll let fate decide tonight
How the dice will roll this time

When the gamblin' has begun
I have no control
I'll let fate decide how the dice will roll

When the gamblin' has begun
I have no control

I'll let fate decide how the dice will roll
