

## If Only

Danny Vera

Like a rubber duck I ride all the waves  
Floating with the tide, oh I will get by lows & highs

I've been around the world for a couple of times  
Sailed through all the storms  
Rolled in dust, where land was dry

But now I'm drowning every night  
My hands are tied  
And I'm sinking like  
A ship that hits ice

I've been howlin' like the wind  
Rollin' like a stone  
If only I could leave it alone

I've been rockin' like a chair  
Breakin' like a bone  
If only I could leave it alone  
If only I could leave it alone

I can smell a fake from a mile away  
The artificial scent makes me wanna say what's on my mind

I'm finding out a way to waken the herd  
But they are runnin' blind in the abyss  
Can't make m turn

So now I'm falling every night  
No wings to fly  
See clouds rush by  
I'm runnin' out of time

I've been howlin' like the wind  
Rollin' like a stone  
If only I could leave it alone

I've been rockin' like a chair  
Breakin' like a bone  
If only I could leave it alone  
If only I could leave it alone
