

Just Like Stars

Danny Vera

I'm watching a story about our lives
Just some old movie in black and white

A role you could play so pure
A script you've never heard before
With fascinating lines

A story with no end and not even a begin
So let's watch tonight

Hold on tight it's gonna start
Let me show you who we are
Don't ask questions, follow your heart
And maybe we'll be just like stars

Get your coke and your popcorn
It's gonna be a long night
We'll marathon the sequels
We'll be up till 5

I wish I looked like Johnny, 'cause you look like Angelina
With a mesmerizing smile
But I'm more like a DeNiro only less cool in a way, though
I hope you don't mind

Hold on tight it's gonna start
Let me show you who we are
Don't ask questions, follow your heart
And maybe we'll be just like stars
