

## Less Than Nothing

Danny Vera

I'll forget the way you touched me  
I'll forget the way you looked at me  
I'll forget the way you smiled  
'Cause that always used to feel so good to me

I wish I could tell you  
That if you held my hand again  
I would hold it forever  
'Cause forever has got no end

I will be less than nothing without you  
And I will go on, 'cause I think you want me to

Sometimes the lights are slowly fading around me  
Still your flame will keep the fire burning inside of me  
You keep my flame burning  
You keep my flame burning

I will be less than nothing without you  
And I will go on, 'cause I think you want me to

If I see you somewhere  
Will I recognize you then  
'Cause your image has faded  
And I don't know if it'll come back again

I will be less than nothing without you  
And I will go on, 'cause I think you want me to  
I will be less than nothing without you
