

## L.O.V.E.

Danny Vera

Wasted the money on gambling, coke and wine  
I'm feeling mighty guilty, I got nothing left behind  
Now I'm trying to fight the system  
They're trying to find a way to get inside my mind  
I lost all my faith in mankind, it's just my way to survive

We've thrown away our ideals for happiness inside  
No reasons to feel sorry, it's just a way of life  
Now we're trying to change the system  
We're trying to find a way to get inside  
We lost all the faith in mankind, it's just the way to survive

Now raise your hand in the air  
Everybody out there  
Make a sign for a V, freedom, prosperity  
Peace and L.O.V.E.  
L.O.V.E.

With opinions of the many, solutions of the few  
We're on a sailboat on the ocean  
That will never get back, too  
The land that we were promised, was it all inside our mind?  
Now we're waiting for the wind again to blow us back to paradise

Now raise your hand in the air  
Everybody out there  
Make a sign for a V, freedom, prosperity  
Peace and L.O.V.E.  
L.O.V.E.

Now we're waiting for the wind again to blow us back to paradise

Now raise your hand in the air  
Everybody out there  
Make a sign for a V, freedom, prosperity  
Peace and L.O.V.E.
