

Outta Love

Danny Vera

The clouds reflect in your sunglasses
Your lips are red, and I know
The aqua sea make your eyes even greener
And turns your skin into gold

There's one thing so sure

No I'll never fall outta love with you
(Outta love with you)
No I'll never fall outta love with you
(Outta love with you)

A pearl of sweat drips off your body
On the white sand below
You look at me and tell me what you're thinking
Oh honey, let's go

There's one thing so sure

No I'll never fall outta love with you
(Outta love with you)
No I'll never fall outta love with you
(Outta love with you)

There ain't no doubt about it
There ain't no reason for it
There ain't no certainty
But I will never fall outta love with you
(Outta love with you)

There's one thing so sure

No I'll never fall outta love with you
(Outta love with you)
No I'll never fall outta love with you
(Outta love with you)

There ain't no doubt about it
There ain't no reason for it
There ain't no certainty
But I will never fall outta love with you
(Outta love with you)

Oh I will never fall, oh I will never fall outta love with you
(Outta love with you)
Oh I will never fall, I will never fall outta love with you
(Outta love with you)
Oh I will never fall, I will never fall outta love with you
(Outta love with you)
Oh outta love with you
(Outta love with you)

(No I will never fall, no I will never fall)
(No I will never fall, no I will never fall)
(No I will never fall, no I will never fall)
(No I will never fall, no I will never fall)
(No I will never fall, no I will never fall)

(No I will never fall, no I will never fall)
(No I will never fall, no I will never fall)
(No I will never fall, no I will never fall)
