

Running & Hiding

Danny Vera

Ever since you left me I'm feeling so alone
Everything around me is different, unknown
Wondering if your love can keep me hanging on
Wishing you'd be here instead of you being gone

Like a river that flows to a never-ending sea
Describes my love for you and how it should be

Running and hiding
Drinking and driving
To be with you
In every way

Once in a while I think of your pretty face
Moments later of your sweet embrace
Honey, I don't know if it's gonna be alright
The only thing I can think of is you by my side

Running and hiding
Drinking and driving
To be with you
In every way

But every night and day
I'm hoping that you would stay
That you'd stay with me

Running and hiding
Drinking and driving
To be with you
In every way
To be with you
In every way
